1. Feasibility study

Do you have an idea or a concept for a new product? We can check your ideas for your product in terms of feasibility and costs.

Our feasibility study assesses your ideas for your product in terms of

- Technical feasibility
- Profitability
- Deadlines and timings
- Risks

We will provide you with our recommendations based on our knowledge of feasibility studies and on the vast amount of experience which we have. We will also indicate alternative ways of solving any problems.
